### How tonight's results will be used

**Varsity.** No team will be eliminated from contention from the championship based on tonight's results alone. The second meet will split the varsity teams into a 6-team Varsity A field and a 4-team level Varsity B field. *Only A-level teams will advance to the top "Varsity A" bracket.*

All division champions--based on winning percentage, then points/game, then points/tossup--will advance to Varsity A along with three wildcard teams. *Note that head to head results will not be used to determine wildcards or other seeding.* These teams will play a round robin bracket designed to minimize repeat of tonight's matches. These team's combined statistics (for the first two meets) will be used to award them the top 6 seeds for the March championship.

At the second meet, Varsity B will play a round robin bracket. The top 2 teams from Varsity B will also advance to the March championship bracket. The other teams from Varsity B will play exhibition matches in March.

**Exhibition teams** will play in a similar elimination bracket at the next meet with seeding based on tonight's results. The top 8 exhibition teams based on the results from the second meet will advance to the exhibition championship bracket.
